Claims 1-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on April 21, 2006.

Regarding elected device claims 9-20, the following is applicable.

This application contains claims directed to the following patentably distinct species: species 1, claims 9-13; species 2, claim 14; species 3, claim 15; species 4, claims 16-20. The species are independent or distinct because they correspond to different embodiments, namely the sixth aspect through the ninth aspect involving distinct structures as delineated in the instant specification, pages 7-9, page 15 line 20 to page 17 line 13.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 2826

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
